PROTECTION RINGS

outer takes the risk - inner keeps the treasure

- 1 STOCK BOT
pattern - orb - stms - extended - scalp
- 2 CRYPTO BOT
scalp - swing - dca - hodl
- 3 OPTIONS
directional - modeled greeks
- 4 DIVIDEND WHEEL
csp - covered calls
- 5 DIVIDENDS
yieldmax - drip
- 6 FOREX
five majors - long + short
- 7 KINDRIP
future index accounts

CAPITAL POCKETS

growth posture - sized from broker-truth equity

STOCKS	42%
CRYPTO	32%
OPTIONS	10%
INCOME	10%
FOREX	6%

every entry is capped by its pocket -
one lane can never eat the others

DATA SPINE

ALPACA	paper broker - stocks + options
KRAKEN	crypto + forex candles
FINNHUB / AV	fundamentals - market caps - macro
SUPABASE	positions - outcomes - settings
MEMO	the agents' long-term brain

The Agent Organism

one decision spine - every trade walks it, every step is logged

CONTEXT RING

feeds every decision

- **market sentiment**
news scored 8-4 et
- **research calendar**
earnings + ex-div ahead
- **cycle awareness**
iv-crush / div-capture tags
- **market horizon**
whole-landscape read / 15 min
- **adaptive scope**
regime tunes the strategies

KEEPERS

the household staff

- **ops watchdog**
raises alarm on silent agents
- **tax optimizer**
real-time tax impact
- **dividend manager**
credits + reinvests (drip)
- **kindrip**
children's future index accounts
- **user support**
answers 'why was this blocked?'

TALLY

- 23 registered agents
- 7 protection rings
- 5 capital pockets
- 16+ strategies in rotation
- 1 operator: mike

SCAN

the eyes

- pattern detection
- orb scanner
- stms scanner
- extended scanner
- crypto scanner
- forex scanner
- options scanner

candlestick patterns - tcs 0-1000
opening-range breakouts, 90-min holds
small-cap momentum, 7-11 am
multi-day swings + pullbacks
scalp/swing/dca/hodl, 24/7
5 majors, 4h candles, long+short
wheel csp/cc + ideas

GATE

the judge

- risk manager
- gate stack

highest authority - approves or vetoes
tcs floor - kill-switches - slippage halt
pockets - cap-tier formulas - atr-real targets
net-edge after fees - per-coin caps

EXECUTE

the hands

- trade execution

stocks -> alpaca brackets
crypto + forex -> modeled engine

WATCH

the pulse

- position monitor
- profit-step ladder
- exit advisors x2

stops - targets - trails - time exits
bank 50% at 60 / 80 / 100% of the run
peak-giveback + options drawback ladder

RE-JUDGE

the conscience

- reevaluator
- options re-score

hourly fresh-candle tcs re-score
rotate when the thesis collapses
premium vs entry - moneyness - dte

LEARN

the memory

- strategy discovery
- outcome weighting
- mem0 brain

win/loss review every 25 trades
live results pick each stock's strategy
lessons + mike's playbook, token-lean

STRATEGY LANES

per-stock: test all, keep the best

STOCKS

- pattern
- orb breakout
- stms momentum
- extended swing
- scalp (mega/large)

CRYPTO

- scalp
- swing
- dca
- hodl accumulate

OPTIONS

- wheel csp
- covered call
- directional

INCOME

- dividends
- yieldmax
- drip compound

FOREX

- forex swing - long + short

THE FORMULA LAYER

every trade: strategy geometry -> regime scope -> cap-tier scaling (mega tight, micro wide) -> atr-realistic target -> pocket cap -> risk-sized

mega >= \$200b - large >= \$10b - mid >= \$2b - small >= \$300m - micro below
